

Remarks

In response to Request for a Summary of the substance of a telephone interview granted to Applicant on January 9, 2007. Applicant called to be clarified about an objection made to the drawing in the first office action. The Examiner explained why the objection was made and Applicant agreed. Applicant has reiterated, below, his understanding of the clarification outlined in the Interview Summary mailed on January 26, 2007.

Regarding the objection to the drawings, per a telephone conversation with the Examiner on January 9, 2007, Applicant has amended figures 1 and 6. These amendments are fully supported by Applicant's specification (*see, e.g.*, paragraphs 0027 and 0028 for Fig. 1; and paragraph 0036 for Fig. 6). Applicant notes that the amendments to figures 1 and 6 correspond to figures 1 and 6 of U.S. Provisional Patent Application Number 60/435,395, to which the instant application claims priority. Therefore, Applicant requests that the objection to the drawings be removed.

In view of the remarks above, Applicant believes that each of the rejections has been overcome and the application is in condition for allowance. Should there be any remaining issues that could be readily addressed over the telephone, the Examiner is asked to contact the agent overseeing the application file, Peter Zawilski, of NXP at (408) 474-9063.
